As the Congressional clock runs down on 2017, home infusion providers, including specialty pharmacies, are pushing for legislative packages to include the Medicare Home Infusion Therapy Access Act of 2017 (S. 1738) or Section 101 of Medicare Part B Improvement Act of 2017 (H.R. 3178). These bills would create a temporary reimbursement policy for services payment for home infusion services beginning in 2019, allowing Medicare beneficiaries access to home-based infusion therapy until the 21st Century Cures Act's permanent services reimbursement goes into effect in 2021.
